

## Scalpdancers

When two exiles find each other, the West will never be the same. The first arrow should have killed the buffalo. But the massive bull keeps charging, and Lost Eyes watches, helpless, as the young warrior known as Waiting Horse is gored to death. As punishment for this tragic accident, Lost Eyes is exiled from his small Blackfoot tribe on the edge of the Elkhorn Creek, cursed to spend his days wandering the plains, forever remembering the hunt that changed his life. Halfway around the globe, merchant captain Morgan Penmerry watches in horror as his ship burns in Macao harbor. Ruined, he attempts a daring return to the Americas to build his fortune anew. There he crosses paths with Lost Eyes, a fellow wanderer who, like the captain, understands the pains of banishment. Together, these unlikely partners will find a place in the frontier and form a bond that no tragedy can tear asunder.
