

## Spiked

This is volume one of a nine part series taken from C.J. Becks masterwork novel SPIKED. It covers chapters one to three. Journalist Jim Strachan is fighting for his life, the truth and the woman he loves. Caught between reporting the truth and the constant threat of death, between an overwhelming love for an elusive woman and her fanatical devotion to her people, between multi-national conspiracies and the depredations of nature, Strachan and his Zulu associate, Winston Nukisa, struggle to survive. From a refined gentlemen club in London, to the terrible stark beauty of a Gaelic island, from love amid the sand dunes to love by the numbers, and from Pentagon politics to a mysterious cavern in the remote mountains of South West Africa, Strachan is thrust into an odyssey of fear, deprivation, and wonder. Strachan and Nukisa encounter enemy after enemy but are never sure where the real threat comes from until its way too late. With tremendous implications for the war on terrorism, SPIKED paints a compelling, complex and truthful three-dimensional portrait of a people and country poised for great accomplishment, or colossal disaster. There's enough adventure here to fill three first-rate novels. SPIKED bridges the gulf between popular and insightful fiction. In the words of one reviewer, Becks previous novel Sizzle, has compelling characters taking the reader on loads of adventure evoking tears and laughter simultaneously. Filled with unbelievable action and a rip-roaring pace, SPIKED is arousing adventure that impacts us all. Inspired by the geographic sweep of Wilbur Smith, the intrigue of John Le Carre and techno edge of Tom Clancy, SPIKED is an epic masterwork that transcends the modern action-adventure form. All C.J. Becks books are available through your local bookstores order desk or at these online bookstores: Blackwells, Foyles,
