

## The DreamWeavers Choice

June, 1826 was the happiest day of Hughs life as he married his childhood sweetheart Amelia. What started as matrimonial bliss turned to tragedy as Amelia is slain by a notorious vampire dandy, Levi. Hugh distraught and heartbroken vowed revenge and began a crusade to rid the world of vampires, including of course Levi. This hatred led him back to Amelia, although in spirit form, who helped with his oath to slay vampires. He became friends with others of his ilk and together they formed an organisation, the VTLO, to develop, manufacture and distribute products (DLFs and Nuits). These products are potentially highly lucrative but are made available free to those vampires wishing to function and behave in a human like way. Those that dont wish to conform to their ideology and maintain the old ways are mercilessly hunted. Moving to modern times this exhilarating novel charts Hugh, Abe and Amelias quest to track down nonconformists and the culprits of several recent human disappearances and massacres. Their path is crossed by lead detective on the murders DC Lauri Howard and her faithful canine companion Bear Boy. In addition to this quest the potentially highly lucrative VTLO is subject to the attention of several Older vampires who along with infiltrators, a small army of insatiable new born vampires and an unwitting Levi mount a concerted battle to acquire the organisation and reap the billions of earnings from charging for the products. Will the Olders succeed? Will Hugh exact revenge on Levi? What could the consequences of this be for Amelias spirit? Will DC Lauri and Bear Boy stand with or against Hugh, Abe and Amelia and can they escape the carnage? Will the world be dominated by Vampire Oligarchs through mass wealth and power? These questions and those of the many intriguing sub plots will leave the reader enthralled and spellbound and are answered in the

dynamic and explosive final chapter. One question remains. What happened to Lord Cecil Leatherton
