

Sins of Madness: Megans Revenge

If you have ever wondered how madness could corrupt someones mind, then listen very carefully, as the devil is in the details. This is the life and times of Megan Scott and the monster she had once become. At the age of twenty-two, Megans life will change in a split second. At that very moment, her life will hang in the balance. Megan will come face to face with the monsters in her past, each filled with its own evilness. Madness comes in many forms, and Megan will experience each of them, just as her mother had seventeen years before. Each of us experiences some type of madness in our lives; therefore, I ask youIf madness settled deep within your mind, what kind of monster would you become?
