

## Theo: A Novella

From the bestselling author of *Salmon Fishing in the Yemen*, a haunting novella that introduces one of the most memorable characters from Torday's forthcoming novel *Light Shining in the Forest*. John Elliott is the recently appointed vicar of St Josephs - a dilapidated church with a congregation of sixteen and a leaky roof. Having entered the Church more by default than through any great calling, he struggles to inject some life into his ailing parish. His wife Christine longs for them to escape the endless rounds of coffee mornings and cake sales. Then Theo, a child at her school, starts to exhibit strange marks on his hands and feet that vanish almost as soon as they have appeared. What has produced these marks - is it physical violence or something stranger? And why has the previous vicar of St Josephs ended up in a psychiatric hospital?
